Santa Anita Park to Stage LA28 Equestrian Events

Arcadia is honored to welcome the return of Olympic equestrian events to the historic Santa Anita Park. Set against the backdrop of the foothills, the events will feature jumping, dressage, and eventing, with both individual and team competitions in each discipline.

Arcadia buzzed with excitement when Santa Anita Park hosted the equestrian events of the 1984 Summer Olympics. Now, more than 40 years later, Arcadia is once again ready, and even better positioned, to welcome the world.

In Arcadia, equestrian culture has been deeply woven into the community's identity since Santa Anita Park first opened in 1934. Located in Los Angeles County, Santa Anita Park has long been an ideal venue for LA28, as it's perfectly positioned to complement the activities taking place throughout the broader region. With additional Olympic venues announced across the San Gabriel Valley, hosting the equestrian events in Arcadia offers fans even more opportunities to engage in the Games.

For decades, Arcadia has demonstrated its ability to host international-scale events by welcoming the Breeders' Cup World Championships 11 times. Most recently, in November 2023, the event attracted 80,000 visitors, who enjoyed a seamless and memorable experience. With convenient access to the Metro light rail and the Arcadia Transit shuttle service, transportation was easily accessible for all.

Additionally, to support this next era of tourism, two new hotel developments are underway in Arcadia. The Hilton Hotel will open its doors in 2025, followed by the groundbreaking of Hotel Tempo, together adding 266 new guest rooms and a rooftop bar. These additions will join the acclaimed Le Méridien, a four-star hotel known for luxurious accommodations and breathtaking mountain views, all just steps from Santa Anita Park.

As the Olympic spotlight returns, so does the opportunity for tremendous economic growth. This global event is expected to bring an influx of jobs and spending to Arcadia's hotels, restaurants, shops and attractions, benefiting local businesses and fueling long-term prosperity for the entire community.
