

MEMORANDUM

Fire Department

DATE: July 2, 2026
TO: Dominic Lazzaretto, City Manager
FROM: Chen Suen, Fire Chief
By: Chantelle Ramos, Office Coordinator
SUBJECT: Fire Department Weekly Report

The Arcadia Fire Department responded to a variety of emergency calls during the week of June 21 - 27, 2026. The following is a breakdown of incident categories recorded for this period:

Incident Category	This Week	YTD
Fire	3	82
Hazard	5	97
Agency Assist	1	18
Medical	80	2,254
Non-Emergency	21	371
Public Service	10	249
Rescue	3	37
Other	0	3
Total Incidents	123	3,111

Sunday, June 21

At 9:52 a.m., USAR 106 responded to Monrovia for a reported vehicle into structure near the 100 block of East Colorado Boulevard. Upon arrival, Monrovia fire units found a solo vehicle into a building. Paramedics performed a full medical assessment on the driver and 3 occupants inside of the vehicle. USAR 106 personnel were assigned to stabilize the damaged structure utilizing spot shores to restore support to the load bearing components of the structure. All patients were

treated and transported to local area hospitals. USAR 106 personnel completed the shoring operation, and the Monrovia building department deemed the structure uninhabitable until full restoration of the structural components is completed.

Monday, June 22

At 23:42 p.m., Engine 105 and Rescue Ambulance 105 responded to a medical incident in the 12000 block of Lower Azusa Road. Fire personnel found a 26-year-old male with a crush injury to his foot from an industrial accident. A full medical evaluation and trauma assessment was performed, including vitals, 12-lead EKG, oxygen, and IV therapies. The patient was transported by Rescue Ambulance 105 to Huntington Hospital for further evaluation and appropriate notifications were made to Cal/OSHA.

Tuesday, June 23

At 14:50 p.m., Engine 105 and Rescue Ambulance 105 responded to a medical incident in the 400 block of West Huntington Drive. Fire personnel found a 71-year-old male with a chief complaint of dangerously low blood pressure. A full medical evaluation was performed, including vitals, 12-lead EKG, oxygen, and IV therapies. The patient was transported by Rescue Ambulance 105 to USC Arcadia Hospital for further evaluation.

Wednesday, June 24

At 12:15 p.m., Engine 106, Rescue Ambulance 106, and BLS 106 responded to the 1500 block of Holly Avenue for a person reported down inside their home. Firefighters arrived to find a 78-year-old altered female. Paramedics arrived and

initiated advanced life support protocols including, 12-lead electrocardiogram, blood glucose testing, intravenous access and transport to USC Arcadia Hospital.

Thursday, June 25

At 7:25 p.m., Engine 105 and Rescue Ambulance 105 responded to the 500 block of East Live Oak Avenue for a reported erratic person. Firefighters arrived to find a 56-year-old female suffering from a severe case of sepsis. Paramedics arrived and initiated advanced life support protocols including, 12-lead electrocardiogram, blood glucose testing, intravenous access and transport to USC Arcadia Hospital.

Friday, June 26

At 8:43 a.m., Engine 106, Rescue Ambulance 106 and BLS106 responded to a reported traffic collision at the intersection of North Baldwin Avenue and Harvard Drive. Upon arrival, Engine 106 personnel found a two-vehicle traffic collision with two patients. One vehicle struck another vehicle at the intersection. Rescue Ambulance 106 personnel initiated patient care on one patient, and the other patient refused medical care. Paramedics performed a full medical assessment on the injured driver and found the patient was experiencing left leg pain from the impact. The patient was transported to USC Arcadia Hospital by BLS 106 for further evaluation. The Arcadia Police Department assisted with traffic control and removal of the vehicles from the roadway.

Saturday, June 27

At 12:28 p.m., Engine 106, Rescue Ambulance 106, and BLS 106 responded to a medical incident near the 1600 block of South Baldwin Avenue. Upon arrival, Engine 106 and Rescue Ambulance 106 found a 75-year-old male with a complaint of altered mental status. Paramedics performed a series of tests on the patient and were unable to identify the etiology of the altered mental status. Fire personnel obtained a 12-lead electrocardiogram, blood glucose check, intravenous access, and Rescue Ambulance 106 transported the patient to USC Arcadia Hospital for further treatment.
