

ARCADIA FIRE DEPARTMENT ASBESTOS REMOVAL PERMIT CHECKLIST

- ☐ Provide address and description of building or area of building where asbestos is to be removed.
- ☐ Notify the Fire Department 24 hours prior to the commencement and closure of asbestos-removal operations.
- ☐ The permit applicant shall notify the building official when asbestos abatement involves the removal of materials which were used as a feature of the building's fire resistance.
- ☐ Plastic film that is installed on building elements shall be flame resistant as required for combustible decorative material.
- ☐ Approved signs shall be posted at the entrance, exit and exit-access doors, decontamination areas and waste-disposal areas for asbestos-removal operations.
- ☐ Signs shall state that asbestos is being removed from the area, that asbestos is a suspected carcinogen and that proper respiratory protection is required.
- ☐ Lettering shall be a minimum of 2 inches high and the signs shall have a reflective surface.
