

chromebooks now available

Chromebooks are secure, easy-to-use laptops that work with resources on the Internet. The Arcadia Unified School District has selected Chromebooks for student use, and you may have seen students using them in the Library.

Now the Library will be offering its own Chromebooks! Patrons of high school age and above who have a valid Arcadia Library account will be able to check out a Chromebook for use inside the Library for two hours each day. A Google or Gmail account is required to use one. Don't have one of those? The Library's Tech staff can assist you in setting one up.

Chromebooks will be available on a "first come, first served" basis and cannot be reserved. Patrons returning a Chromebook late will be subject to a \$1 per hour late fee. Patrons who lose or damage a Library Chromebook will be subject to a \$160 replacement fee. Printing from Chromebooks is not currently available, but will be coming in the future.

See the Computer Help desk for more details,
or to check out a Chromebook!
