Emergency Notification

alert arcadia
Emergency Notification System

When there is an emergency, get the information first with Alert Arcadia.

Arcadia's new emergency notification system, Alert Arcadia, enables you to receive informational messages from the City in the event of an emergency.

Remember the Station Fire in 2010?
The windstorm in 2011?
Would you have appreciated receiving information about what was taking place? That type of communication is now possible with Alert Arcadia.

Messages may be received by voicemail, e-mail and/or by text.

The information sent through Alert Arcadia is intended to help keep you informed should the City or region experience a significant event such as a fire, earthquake, windstorm, a public health emergency, or other similar situation. Messages may cover such subjects as safety alerts and directions on what to do; the location of shelter, warming and power centers; evacuation orders; debris removal information; and updates on the City's response to the emergency.

Alert Arcadia is a free service provided by the City to help make sure you have the information you need when you need it. Registering for the system should be part of your personal emergency preparedness plan.

Register for Alert Arcadia

To register for Alert Arcadia, visit the City website at **www.ci.arcadia.ca.us**. There is a link on the home page that will take you to an area that details the registration process. Once on the registration page you will be able to sign up and customize your message settings to select the type of information you want to receive, and the method by which you want to receive the messages. Multiple phone numbers (including VoIP) and e-mail addresses may be put into the system. Family members not living in Arcadia are able to register as well, either as part of your account or on their own.

For more information, please call the Arcadia Fire Department at 574-5100.
